

## **The Net Committee: A joint project between Outreach, Education, YaYA, Membership, and Conference Committees.**

**December 3, 2011**

It's important we are all of the same understanding of our Community Outreach project. I'll keep it very simple.

### **What is the Net?**

The net is a community we build where we facilitate spiritual growth of individuals. We'll set up a community that accepts and embraces people who come to find the teachings of the Urantia Book.

### **What are the Lures?**

There are two lures. One is the advertising we will do to bring people into our community who are attracted to the teachings we will be offering. Two is to advertise the Urantia Book, and welcome those attracted to the revelation into the community we will be building.

### **Who are the Fish?**

The fish are the people who want to learn and grow spiritually. We will be focusing on the Christian community ages 18 to 35, but will accept anyone who will come. They will answer our advertising and enroll in our classes.

### **Where is the River?**

At this time we believe the best location of the river is in California. Many of those living in this area are willing to dedicate their time and energy to help develop the already existing communities into an effective environment to support the net committee.

### **What are our roles?**

**The Outreach Chair** will coordinate and communicate between the different Committees, similarly interested organizations, and personnel at the net location. He will raise awareness, funds, find volunteers, etc. He will begin partnering with different groups in the net location to help develop a diversified community.

**The Education Chair** will create a curriculum for workshops to introduce both the Urantia Book and Its teachings to the local net environment. The Chair or the facilitators the Chair chooses will travel to the net location to train local readers to present the workshops.

**The YaYA Chair** will find and interact with young adult readers that already exist in the Net location or are willing to move to our location. The Chair and his group will organize the group into a service pod to support the formation and growth of our NET Community, interact with all other committees, participate in the training of young adults in preparation for presenting the various workshops the Education Committee develops.

**The Membership Chair** will interface with the local Societies and study groups to create a group of volunteers willing to work within the Net Community to support the development of a new group of individuals attracted to the various workshops we will be doing. The Chair and his volunteers will travel to the site of the local community to facilitate a series of small conferences to train and instruct the community, (as well as learn from the community members); on how to interface with new readers and curious believers brought to us through advertising the book and its teachings.

**The Conference Chair** is responsible for planning, staffing, organizing, managing, and implementing all conferences, meetings and workshops in the Net location prior to, during, and after the marketing events. She is responsible for the budget, receipt of funds, and working with our person responsible for finances.

This is my explanation in a nut shell. I look forward to working with you, building a team, and moving forward.

Love to you all,

The Net Master :)
