

The Urantia Book on Evolution

“The physical systems of time and space are all evolutionary in origin.” (P360:4, 32:3.2)

“Life does not originate spontaneously. Life is constructed according to plans...”

(P396:1, 36:0.1)

“The long-drawn-out evolutionary processes of peoples, planets, and universes are under the perfect control of the universe creators and administrators and unfold in accordance with the eternal purpose of the Universal Father, proceeding in harmony and order and in keeping with the all-wise plan of God.”

(P46:6, 3:2.2)

“Excepting perfect beings of Deity origin, all will creatures in the superuniverses are of evolutionary nature, beginning in lowly estate and climbing ever upward, in reality inward.”

(P361:3, 32:3.8)

“The perfection of the creatures of time, when finally achieved, is wholly an acquirement, a bona fide personality possession. While the elements of grace are freely admixed, nevertheless, the creature attainments are the result of individual effort and actual living, personality reaction to the existing environment.”

(P361:4, 32:3.9)

“It would be just as easy for the Universal Father to make all mortals perfect beings, to impart perfection by his divine word. But that would deprive them of the wonderful experience of the adventure and training associated with the long and gradual inward climb, an experience to be had only by those who are so fortunate as to begin at the very bottom of living existence.”

(P361:6, 32:3.11)

The Urantia Book is a wake-up call to our planet from the rest of the inhabited universe, telling us where we are, who we are, and why we are, as individuals and as a collective human family. It is also the story of why up to now we have been largely ignorant of our origins, history, and destiny, and of our place in the vast universe that our small world has always had a beloved place in, no matter how blind we've been to that. We have never been alone, as individuals nor as a world, and now The Urantia Book is given us to reveal our true home—that of our world in space and that of our individual beings in the heart of the eternal Creator. The spirit of God lives within each of us, to guide us through the universe after this life to his presence at the Source and Center of all things. Finally, the book is also a year by year, day by day, even minute by minute account of the life and teachings of Joshua ben Joseph, Jesus of Nazareth, told by eyewitnesses to the events of the noblest and most selfless life ever lived, a story not limited by human vision and understanding that clarifies and illuminates the Biblical account.
