Re: Jacques Weiss

Dear Ed:

Since the publication of the Urantia Book, Jacques Weiss of Paris, France, has been in communication with the Urantia Brotherhood and Foundation.

I have attached Thermodax copies of the following correspondence:

Jacques Weiss letter dated May 31, 1957,
to the Urantia Brotherhood

Secretary General of Urantia Brotherhood
letter of June 5, 1957, to Jacques Weiss

Emma L. Christensen, Secretary, Urantia
Foundation letter of June 12, 1957, to
Jacques Weiss.

Emma L. Christensen, Secretary, Urantia
Foundation letter of November 5, 1957 to
Jacques Weiss.

Jacques Weiss letter of November 13, 1957 to
the Urantia Foundation.

I have been delayed in presenting this material to you for your suggestion as to how this last letter, dated November 13, from Jacques Weiss should be answered so as not to legally obligate ourselves or give any inference thereof regarding contracting with him at a future time in any regard.

I have included correspondence immediately leading up to this November 13 letter so as to give you a little more "pitch" as to the background.

URANTIA FOUNDATION

We are in no position to know what the future actions and plans will be for translations of the Urantia Book whether in France or other localities. Mr. Weiss is a most interested party because of his interest in the text, as you can see. We are just not ready to move along in lines which he is enthusiastic to do; yet, we wish to give him the courtesy of answering his letter and maintaining his interest in our long-range plans when we are able to develop them.

Could you advise me rather promptly as to your thoughts on how this letter should be answered.

Sincerely yours,

William M Hales,
President
