Dear Mr. Weiss:

Since your letter of January 21 was addressed to the Brotherhood, it came to my desk first. I am passing it on to Miss Christensen, Secretary of the Foundation, to answer your questions. But I wanted to tell you for myself how very much interested we are in your work on the translation of the book. Every once in a while I report to our group how you are progressing and they are very interested.

Best wishes for the coming year and success in your work.

Cordially,

Secretary-General

Marian Rowley
