Laguna Hills, CA 92653

Dear Clyde:

We need more Concordexes. They have been moving out at a steady pace. Please send us 100 more, as soon as convenient.

John suggested that I should tell you that in the last several shipments the tape on the boxes has been torn and loose and in a few cases the boxes had come open, although no books were lost. Perhaps the tape is gried out and not holding, but the boxes definitely need more tape - or stronger. We had the same trouble with the boxes of URANTIA Books which came from the printer.

We have your registration for the conference and got the notice from the college of your room reservation. We will take care of it the way you want it. Not to worry!

Best to you both,

Marian Rowley
