V MORONTIA MATERIAL (9:3; 541:3) (189:NL & LP)

Meaning and composition

VI MORONTIA POWER SUPERVISORS (542:#2)

FUNCTION: energy regulators; supervise activities combining spirit and physical energies-- semi-material energies. Created in groups of 1000

- Orders:
1. Circuit Regulators: coordinate spirit and physical energies (400)
 2. System Co-ordinators: provide ascending scale of morontia spheres and forms (200)
 3. Planetary Custodians: authorize changes in creature form (100)
 4. Combined Controllers: sensitive to and functional with- physical, spiritual and morontial energies. Whole morontia organization is dependent on the stabilizers (100)
 5. Liason Stabilizers: make possible conversion of morontia energy into morontia material (100)
 6. Selective Assorters: examiners of mortals, give tests; certify advancement (50)
 7. Associate Registrars: custody of records (50)

VII OVERVIEW OF POWER CONTROL (1273:#5) PRIMARY AND SECONDARY CAUSATION (1298:#4)
