

THE URANTIA BOOK

"The Greatest Proclamation Since The Earth Life Of Jesus"

With each new age, when man wearies of the old and needs renewed faith, comes a religious teacher or new writings to present to us new and modern concepts of God as the Universal Father, together with more enlightenment about His great works.

Jesus of Nazareth was our last great teacher who bestowed himself upon this planet nearly two thousand years ago, but as most people know, many of his truths have been deleted from his teachings, translated from language to language, and interpreted according to the consciousness of the interpreter. But the Master's truths cannot be abridged nor changed to fit the race.

Of late, the pure teachings have come through a soul who qualified for such an honor and who gives us these works word for word, taken from the original memory records, -- "The Urantia Papers". "Urantia" is the cosmic name of the earth planet. These papers came through in something like one hundred and ninety-six in number.

This great compilation began in approximately 1930 and later instructions were given to print them in 1955. "It is the most recent of the greatest revelations of truth to the mortal races of Urantia". (Pg. 1008)

In this particular age most of our teachings are reaching us through the printed word. The great ones have elected to reach us at this time through the printed word, in a little different manner, that is... without embodiment. Our Elder Brother is sending his servants to help in the struggle for understanding and righteousness in this confused world, and in the case of the Urantia Book a great "Corps of Truth Revealers were authorized to formulate an explanation of meanings and translate them into the English language of Urantia". (Pg. 1)

Then a commission of Higher Ones was sent to Urantia in the hope of facilitating comprehension, by transferring in detailed information in our own understandable language, these beautiful truths.... A new address regarding The Father, The Son, The Spirit, and The Hereafter. It is a revelatory system propounded by the real spiritual world, a response of the super-intellectual cosmos to the mortal hunger to believe in and depend upon the Universal Deities.

Such divine visitations must portray teachings which are not too far removed from the thought and reactions of the age in which they are presented. Thus does and must this revelation have the attunement with our evolution today.

There is vast information in the first part of the Book about Cosmography, the science which deals with the constitution of the whole system of worlds which man up to now knows little about, and it clarifies the many references in the Bible to the worlds beyond. The spiritual governments are explained in full detail, describing the personalities and the many orders of ministering spirits therein.

We are given a concise picture of mind and spirit. Soul is articulated in a comprehensive manner, and the point of contact of that "God in you" is cleared so as to render great spiritual poise to the reader, minimizing his earthly problems and he can rest confidently and harmoniously on his own individual path, personally recognizing in his heart and mind -- God the Father and our magnificent sovereign, Jesus of Nazareth, to whom we are accountable -- for this book truly carries a tremendous power.

We are taught the difference between effective prayer and prayers of petition and what true worship is, and are told how to pray. (Pg. 65; 997-999) We are enlightened as to the procedure of the resurrection of mortals at death, some individually and some in groups and what and where the adjudication is.

Other papers relate to the history of our planet, what the Luciferian Rebellion is and what is being done about it; something of the governments on neighboring planets, the history of our religions and how we have arrived at the various stages today; the arrival and history of Adam and Eve; Adam's administration; the real Garden of Eden and life in the Garden; the origin of the colored races: red, yellow, blue, and the three white races; the mixed races: Caucasoid, Mongoloid and Negroid.

Also, the "I Am" as a triune and as sevenfold, and why God distributed the infinity of His eternal nature throughout reality. One paper is given over to personality and its seven dimensions -- what an awakening it brings!

Other clearly explained technical papers deal with forces, energies, universal non-spiritual energy systems, space potency, gravity energy; spiritual gravity of the Eternal Son; personality gravity of the Universal Father; mind gravity of the Infinite Spirit; and the material gravity of the Eternal Isle of Paradise; atomic matter; energy and matter transmutations; pattern and form; natural philosophy; and hundreds of other subjects that will assure you of "never a dull evening" if you will just keep the book handy.

On the distaff side, the woman of today will feel assured that she has the answers while at the same time the Urantia Book is a real challenge to the masculine mind and is extremely rewarding.

What a great and glorious thing it is to know positively that upon our departure and completion of our earth service, we begin an endless career of adventure, an eternal voyage of discovery as we progress from planet to planet within each circuit.

In the vicinity of Los Angeles this book is in the library of more than twenty-five of our college libraries, including U. C. L. A. and U. S. C.
